dlery at T. Romero &  
Son's.  
Ice cold Milwaukee beer on draught,  
10 cents, at Billy's.

## NEWS BY TELEGRAPH

**Terrazas Attacked by Reds and 30 of His Men Killed.**

**Culmination of the Senatorial Fight at Albany.**

**Warner Miller Elected for the Long Term Senatorship.**

**Eldridge G. Lapham Lacked only Five Votes of Election.**

**Train Robbery on the C. R. I. & P. at Winslow, Missouri.**

**The Conductor Killed and all the Passengers Robbed.**

**They Had a Gallows Entertainment in Southeast Missouri.**

**European Cablegrams of a Very Newsworthy Character.**

**A Bloody Revolution Soon Expected in Russia.**

**President Garfield Rapidly Approaches Convalescence.**

**Gossipy Gleanings Gathered from Various Quarters.**

**Terrazas and Party Attacked by Indians.**

**San Francisco, July 16.**—A Tuesday dispatch says that a report comes from El Paso that Governor Terrazas, who was en route to El Paso was attacked by Indians and thirty of his men killed last Wednesday.

**Platt's Successor.**

**Albany, July 16.**—The joint convention met at noon and the chair announced that the convention would proceed to vote for U. S. Senator in place of Roscoe Conkling, resigned. Speaker Sharpe detailed the failure to secure a caucus, and referred to the one called by a majority of representatives. He acknowledged its authority, as it emanated from a majority. He had delayed action in accordance with the result of that caucus, because he saw in the election of the candidates nominated a great danger. He soon warned the convention of that danger, saying that the Democrats of the U. S. Senate would do what they could to make the election futile. He concluded by saying that when his name was called he would vote for Eldridge G. Lapham instead of Roscoe Conkling. [Applause.]

The vote was then proceeded with. Senator Foster, when his name was called, explained his action as a member of the Caucus Committee.

**LAPHAM LACKED FIVE.**

The vote, short term—Potter 47, Lapham 68, Conkling 29, Evans 1, necessary to elect 72. Senator Baker, Speaker Sharpe and Senator Sessions were the only ones who changed from Conkling to Lapham.

**WARNER MILLER ELECTED.**

The convention then proceeded to vote on the long term vacancy with the following result: Kernan 47, Miller 76, Fish 9, Chapman 2, Daniels 1, Stavin 3, Bliss 1, Adams 2, Wheeler 4, Talcott 1, Tenney 1, necessary to choice 73.

The following went over to Miller: Senator Winslow and Assemblymen Bingham, Campbell, Carpenter, Cullen, Dickey, Hurd, Jackson and Sharpe. The chair then declared that Warner Miller was elected to fill the vacancy caused by the resignation of Thos. C. Platt.

Senator Winslow moved that the convention adjourn. Carried, 76 to 69.

**THIS IS THE SCHEME.**

New York, July 16.—Evening Express, Albany special: It is now proposed to push Miller along into the short term senatorship, then elect C. M. Depew in his place for the long term. This plan, if put into operation, will carry the ticket with a gust of enthusiasm.

**GOING TO GLORY VIA THE GALLIOWS.**

St. Louis, July 16.—Frank Brewer and Jesse Myers, last of the gang of desperadoes who long terrorized New Madrid County, were hanged at Sikes Town, Mo., to-day. They partook of communion and complacently expressed the belief that they would go direct from the scaffold to Heaven. Myers' rope, eight feet long, touched the ground, but the guard rushed in, drew up the rope a few inches, fastened it, and death soon ensued. An immense crowd assembled, and the men asked the Sheriff to hang them early in the day, being incensed at the idea that lemonade vendors should make profit out of their misfortune.

**CONKLING'S BUSINESS.**

Washington, July 16.—Conkling said to-day that he came to Washington on business in every way disconnected with politics and that he might be here for several days yet. His friend says he is here on business connected with the Hudson River Tunnel and that Senator Jones, of New Mexico, is largely interested in that tunnel; that Conkling is attorney; that some litigation is expected over tunnel affairs, and Conkling is here looking up the laws.

**MEXICAN CENTRAL OPENED.**

City of Mexico, July 15.—The Mexican Central Railroad opened yesterday from here to Tula, about 50 miles.

## Cablegrams.

**EXCESSIVELY HOT.**

London, July 16.—The heat continues. Several deaths have occurred from sunstroke. At the Greenwich observatory yesterday the thermometer registered 97 in the shade, the highest trustworthy maximum. In the sun it was 153 at Paris. At 4 o'clock yesterday evening the thermometer indicated 97 in the shade.

## NOTES FROM THE VATICAN.

A dispatch from Rome says that Jacobini, Papal Secretary of State, in receiving the ambassadors and minister accredited to the Vatican, told them the Pope had instructed him that it was the Pope's personal desire that they should inform the government how deeply pained he was at the insult offered Pope Pius IX, that henceforth he might consider himself more than ever a prisoner in the Vatican, and is prevented from attending any religious services and of the Basilicas of Rome. At the same time Cardinal Jacobini read a draft of a circular of the Papal nuncio, with instructions to leave a copy in the hands of the respective minister of foreign affairs. Correspondents say that part of the Pope's message relating to religious service in the Basilicas confirms what has been confidently asserted in high clerical circles, that had the removal of the body of Pius IX been effected peaceably the Pope would have found an early occasion for passing the door of the Vatican.

## FAINTED ON THE SECOND LAP.

London, July 16.—At Birmingham the 75 miles walking match was won by Rabbly. Merritt, of Boston, fainted on the second lap, and was carried from the track amid great excitement.

## RUSSIA'S RUDELL CONDITION.

New York, July 16.—The World's London cablegram: Well informed correspondents at St. Petersburg report that Russia is fast drifting into anarchy. The czar still keeps himself a close prisoner at Peterhof. Occasionally when business of state requires his presence at the capital, he leaves his fortress, enters St. Petersburg almost by stealth and returns as quietly. The new ministry under Ignatieff has abandoned the promised reforms and is crushing out by the most autocratic and high handed measures the efforts of the people for a representative government and the reconstruction of the municipal system upon a broader and freer basis. The peasants, although the crops promise fairly well, are in a terrible plight, officials from the highest to the lowest are sunk in corruption, priests of the orthodox church are not much better and nihilism has reached to a pitch of arrogance and absoluteness unknown in the worst days of the Romanoff regime. The nihilists did not exaggerate when they told the czar the other day that there was no longer occasion for the use of dynamite, as the whole fabric of the empire was about to explode. Revelations of Pavel Biswanski, the imperial state's attorney, who was appointed to examine into the workings of the police system in the Oranburg department, and who was stripped of his office because he exposed frightful abuses too faithfully, have been printed and are being scattered far and wide throughout the country. Some of the state convicts of Siberia, too, have found an underground way of sending their diaries to the revolutionary press and these have a vast circulation. The czar is either kept in ignorance of the critical condition of affairs or is afraid to take action and a revolution such as the world has never witnessed is not far off.

## PRESIDENT GARFIELD.

Washington, July 16.—Doctor, when are you going to announce officially that the President is out of danger?

Was asked of Dr. Bliss.

"There are some unforeseen accidents which may occur, and there is no reason for deceiving the public; that is why we will not say that he is out of danger entirely. He is becoming right along, but that is no reason why we should proclaim that he is totally recovered from danger, but he is a pretty safe man."

Said Dr. Barnes to a similar question:

"The public should be given only the facts. There is no reason, except the possibility of accidents, why it should not be said that the President is out of danger."

## COULDN'T BE MORE FAVORABLE.

Dr. Reyburn says he could hardly imagine a more favorable progress than the patient had made to-day. His fever up to 3 p. m. had been barely perceptible, even at that hour, the time of its greatest intensity. It was much lower than ever before. Process of suppuration is going on in a perfectly natural and normal way, and the drainage tube was introduced into the wound this afternoon to a depth of 3 or 4 inches. The discharge is now subjected every day to microscopic examination, with a view of ascertaining from fragments of tissue which it may contain, whether it comes from the depths of the wound or not, and if it does, what indications it furnishes with regard to the parts of the body through which the ball passed.

## NEW AND USEFUL COOLING APPARATUS.

Jennings has got a larger cooling apparatus at work, which furnishes 100,000 feet of cool air per hour. The invention attracts much notice.

## DRUNKEN ROW AT A BALI.

Pittston, Penn., July 16.—At one o'clock this morning, at a raffle and ball at a prominent local politician's house, a drunken row occurred. Part of the guests being ejected, stormed the house and a party of citizens met on their way to the depot took a hand in the affray, being set upon by the Molliens. A circus man fired at and killed John Maggan. The fight waxed fiercer, the crowd increased, and a perfect bedlam of shots and shots rent the air. The departure of the circus took the heart out of the fight, which soon after ceased. Several persons were wounded. Officers have gone to Mauch Chunk to arrest the man who fired the shot.

## Train Robbery.

**Kansas City, July 16.**—It is reported that the Rock Island, due in this city last night, was side tracked at Winslow Station, near Cameron Junction, about 7 o'clock and boarded by a band of desperadoes, who killed the conductor and robbed all the passengers and mail and express cars.

## FURTHER PARTICULARS.

A train robbery occurred to-night on the Rock Island Road at Winslow Station, near Cameron Junction, when the train which left this city to-night in charge of Conductor Westfall reached that point at 9:30 a gang of desperadoes appeared and side-tracked the train. Every car was boarded, the conductor was killed and the passengers robbed. It was impossible to secure any particulars up to a late hour. Winslow is in an open prairie country, and would seem to be the last place on the line robbers would select for such an operation, but the vicinity has a very hard population and it is not improbable that the outlaws would offer assistance to any one in their efforts to escape pursuit. The first report of the robbery received in this city started a hundred rumors about the notorious James brothers, but all speculation is idle at present.

## TIMOTHY O. HOWE—MONETARY MATTERS.

New York, July 16.—A Tribune reporter boarded the steamer Celtic at quarantine yesterday afternoon and on the way up the harbor had a talk with Timothy O. Howe, emissary to the monetary conference at Paris. In speaking of the conference he said: "This has been not quite so successful as the government of the United States had hoped. When I left Paris my colleagues thought I could do so without neglecting the interests of my government, in fact it was expected that conference would adjourn before I reached New York, were it not more successful. I do not think the result of the conference will effectually compromise the future good results. The only obstacles to a universal standard were presented by Great Britain. She was not prepared to accept bimetalism for herself and still less prepared to see the rest of the world reject it. Her government is now engaged with other cases. Her commercial and financial classes are very much interested in this great question and the success of it has ultimately very much quickened as the result of the conference. I have many reasons to believe that as soon as the government of Great Britain has time to take up the question it will receive a careful and favorable consideration."

## HOWE, AFTER ENQUIRING PARTICULARLY.

after the condition of the President, said there was intense indignation expressed in Paris at the attempt upon his life and universal sympathy expressed for him and his family.

## Macfarlane's Mission.

San Francisco, July 16.—Among the passengers from Honolulu by the last steamer was Major G. W. Macfarlane, aid de camp and bearer of dispatches to King Kalakaua. His mission has excited some enquiry from a number of prominent planters and merchants from the island. It is learned that the King was at one time induced by the notorious Chaharcelso Morfi to enter into an arrangement by which the Chinese merchants' line of steamers were to land a million Chinamen on the island on which a capitation tax of \$7 each was to be levied. They were then to be made citizens and the kingdom turned over to the Chinese Empire for this consideration. The scheme baffled by the action of foreign residents and the officials chagrined at the issue, and his resulting impopularity, the King went off on a tour of the world. It has been supposed that the arrival of Macfarlane had some connection for or against these schemes, but Claus Speckles, a leading planter of the islands and merchant of this city, says his mission is to officially announce the death of Chief Justice Harris and other news of importance.

## The Accommodating Jay Gould.

New York, July 16.—The following was sent to the newspapers here to-night: In view of serious inconvenience to many people from the malicious and vexatious suits against the Western Union Telegraph company I have arranged with the Mercantile Trust Company of the Western Union Telegraph Company the amount of their dividends payable this day upon assignment to me at the office of said Trust Company of their right to receive the same. [Signed.] JAY GOULD, New York, July 15.

## Amalgamated Trades and Labor Union.

New York, July 16.—The Amalgamated Trades and Labor Union to-night reorganized for the purpose of starting similar unions throughout the country, so that if there be a strike in one State associations in other States would assist them. A communication was favorably received from unions of Toronto, Canada, asking that both associations act together.

## Railroad War.

New York, July 16.—The railroad passenger rates war continues. Attempts looking toward a conference of the presidents of companies have been made and it is believed no consultation between the heads of competing lines will be had until, as one railroad man expressed it, "passenger rates reach bed rock."

## Blaizes.

Bradford, Pa., July 16.—A fire broke out in a frame building on Main street and spread with great rapidity before it could be subdued. All the buildings on the square bounded by Main, Newell and Webster streets and the Erie railway were destroyed. Loss, \$50,000; insurance, light.

## Reduction of Passenger Rates.

Denver, July 16.—At a meeting of the Colorado pool it was agreed to reduce the passenger fare to the Missouri river from Denver to \$25.00. There were several important changes in freight rates, mostly reductions.

## Astronomical.

**Rochester, N. Y., July 16.**—Dr. Lewis Swift, director of Warner's Observatory, yesterday received a letter from J. M. Schaller, of Ann Arbor, Mich., announcing that he had discovered the nebulous matter in R. A. 5h. 48m., declination n. 38 degrees 45m., but daylight obscured its identity. Dr. Swift this morning reported that he discovered the matter in constellation Auriga, and it is quite bright, being larger and more luminous than the one discovered May 1st by Dr. Swift. Its centre is strongly condensed, and from the motion it is apparently very slow. It can't be ascertained whether it is going directly toward or from the earth. The comet is telescopic. This is the fourth comet discovered since May 1st. Dr. Swift thinks, from the present position of the comet, that it is expected it is the comet of 1882. It is moving very slowly towards the northwest.

## American Horses for England.

Pierre Lorillard will ship to-day nine thoroughbreds to reinforce his stable at New Market, England. The lot will consist of the bay filly, Aranzad, 3 years old, by Bonnie Scotland, dam, Arizona, by Lexington; the chestnut colt Sachem, 2 years old, by Wardance, dam, Sly Boots, by Rivola; the brown colt Emerald, 2 years old, by Saxon, dam, Girl of the Period, by Virginia, and six yearlings.

## Brilliant Birthday Party.

A birthday party in honor of Miss Mamie Otero was given at the residence of Don Miguel A. Otero last evening. It was a grand affair, the gayest social event that has occurred in Las Vegas in a long time. The hospitality of the Otero household is proverbial and nevas it more lavishly dispensed than on last evening. It was the intention of Don Miguel Otero and his wife to make this a gathering of young people, and the attendance was large and included our best society young people. Another party will be given ere long for married people on the occasion of the birthday anniversary of M. A. Otero, Jr.

Last evening the lawn was brilliantly lighted by Chinese lanterns. Dancing was kept up in a pavilion on the lawn till an early hour. The attendance was large and the enjoyment of all great. The following were among those present:

Mrs. Prichard, Mrs. Ennis, Mrs. Whitmore, Mrs. Holmes, Mrs. Stapp, Mrs. Dyer and Mrs. Dr. Henriquez, Misses S. Cooper, Lizzie Martin, Lulu Seewald, Pearl Island, Josie Stoops, Carrie Stoops, Belle Jennings, M. Prichard, Josie Hubbell, Carrie Dyer, Ida Wiley, N. Wisner, Robbins and Salie Perez; Judge Davis, O. L. Houghton, Dr. E. H. Skipwith, Dr. J. M. Cunningham, C. C. Gise, F. W. Barton, A. A. Keen, A. H. Reynolds, A. M. Blackwell, T. D. Bill, E. G. Murphy, J. Eugene Reilly, D. T. Hoskins, Lee Chick, Giles Kellogg, D. H. Ireland, Lute Wilcox, Dr. E. C. Henriques, C. Grove, A. H. Whitmore, Rush Holmes, E. Kirkpatrick, J. C. Blake, Charlie Dyer, John Dold, H. Coors, G. P. League, W. S. League, C. Gross, Ed. Gross, A. J. Crawford, P. Lane, H. W. Kelley, W. Fabian and H. N. Bogue, of Topeka.

The work of development on the mining properties in the Socorro Mountains is being rushed. The "Milton" tunnel is in 170 feet. In the "Torrence" mine they are running on the second level and are down 207 feet. The "Ancon" tunnel has been run 307 feet, and the "Mills" 210 feet. In the "Socorro" tunnel they are working on two leads and the first shaft is down 75 feet and the second 290 feet. The "Manzanares" tunnel is 167 feet in.

T. F. Chapman returned yesterday from a thorough inspection of the Mineral Hill mines. He is convinced that they are solid, substantial mines and will repay putting in machinery.

Any one knowing the whereabouts of Edward Falch, who came to Las Vegas about six weeks ago would confer a favor by communicating with George Linn, at Mendenhall's, West Side livery stable.

## CHURCH SERVICES.

### EPISCOPAL CHURCH.

Rev. Mr. Boyle will officiate at the Episcopal Church to-day at 10:30 a. m. and 7:30 p. m. All cordially invited.

### METHODIST CHURCH.

Rev. H. H. Hall, of Santa Fe, will preach in the M. E. Church both forenoon and evening, at 10:30 a. m. and 8 p. m. Sabbath school at 3 p. m.

### Fine Cigars.

Just received a lot of the famous H. S. cigars fresh from the factory of Henry Switzer; also the Golden Crown, the choice and favorite of Kansas City. All the famous smokers smoke them. Also a fresh lot of liquors, the best to be had in the market. New attractions in everything every night, and the finest "goods" and best brands known at the Exchange Saloon, Wolf & Putnam, 511tf

### Mint Julips at Billy's.

Burts celebrated Boots and Shoes at the New York Clothing Store.

Examine Lockhart & Co's fine new stock of furniture before purchasing elsewhere. 5-11tf
